

Welcome to the World of Standards

INTRODUCING ETSI ISG CITY DIGITAL PROFILE

Connected Cities Conference, 11th January 2018

Paul Copping, Chief Innovation Officer, Digital Greenwich and Chairman, ETSI ISG CDP

The smart city as fitted kitchen

WHAT CAN CITIES ACHIEVE TOGETHER?

- Express their needs across a complete technology stack
- Develop a shared roadmap that is standards compliant
- Learn about relevant state of the art technology developments
- Exchange lessons learned during early deployments
- Develop cross-domain use cases and priorities
- Develop profiles of city deployments using simple language
- Facilitate access across ETSI and the wider standards community
- Enable interoperability, leading to collaborative procurement

WHAT DEFINES OUR APPROACH?

- As open and collaborative as possible
- Output available for review by all
- Share user stories, scenarios and use cases
- Work with vendors in a standards compliant ecosystem
- Signpost existing standards work and do not duplicate
- Deliver materials and processes to guide smart city deployment
- Focus on needs of city leaders seeking to take action
