

Smart City App

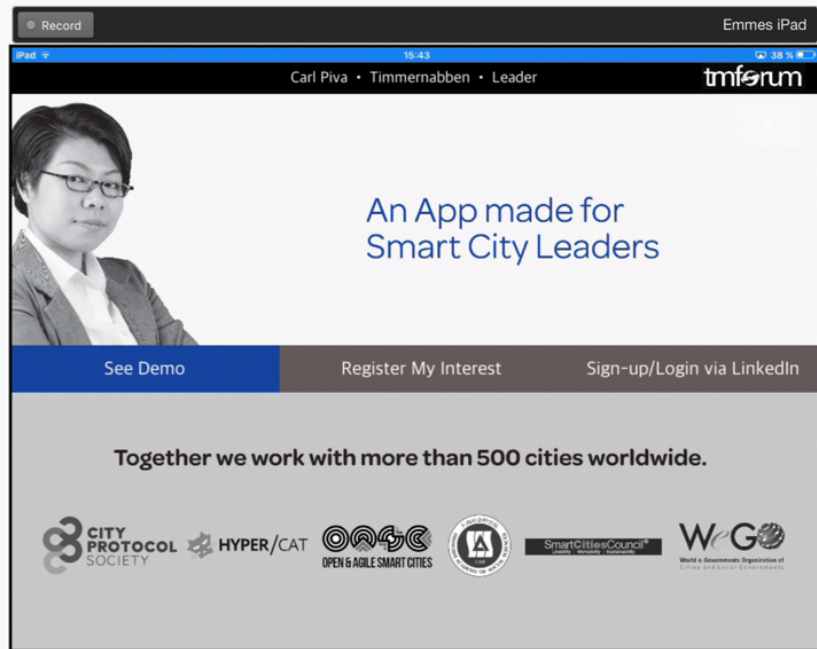

Built for smart city leaders

My story

Smart City Maturity and Benchmark Model that helps define your as-is situation and articulate the wanted position

First mobile device app to help **smart city leaders** worldwide

Endorsed by OASC, Smart Cities Council, WeGO, Shanghai Academy, City Protocol Society

What we learned

The standards and best practices landscape is fragmented

Smart city leaders need models they can rely on

...and they need tools to align their various stakeholders
