INSPIRING CITIZENS PARTICIPATION FOR ENHANCED COMMUNITY POLICING ACTIONS

The INSPEC²T project's scope is to develop a sustainable framework for community policing that effectively addresses and promotes seamless collaboration between the police and the community.

INSPEC²T is funded by the European Union's Horizon 2020 - Research and Innovation Framework Programme, H2020-FCT-2014, under grant agreement no 653749

This image displays a vast grid of binary code, consisting of numerous rows and columns of 0s and 1s. A prominent feature is a thick diagonal line running from the top-left corner towards the bottom-right corner, colored red. This red line serves as a visual guide through the otherwise black-and-white data. The binary data itself is arranged in a repeating pattern, suggesting a structured or algorithmic source of the sequence.

Welcome Note From The Mayor

Nicolas Walder
Mayor City Carouge,
Geneva, Switzerland

Introducing the Panel Experts

Davor Meersman
City of Things Lead
imec

Louise Overgaard
Innovation Officer
City Aarhus

Ingrid Willems
Manager
