Four project objectives, two accelerators

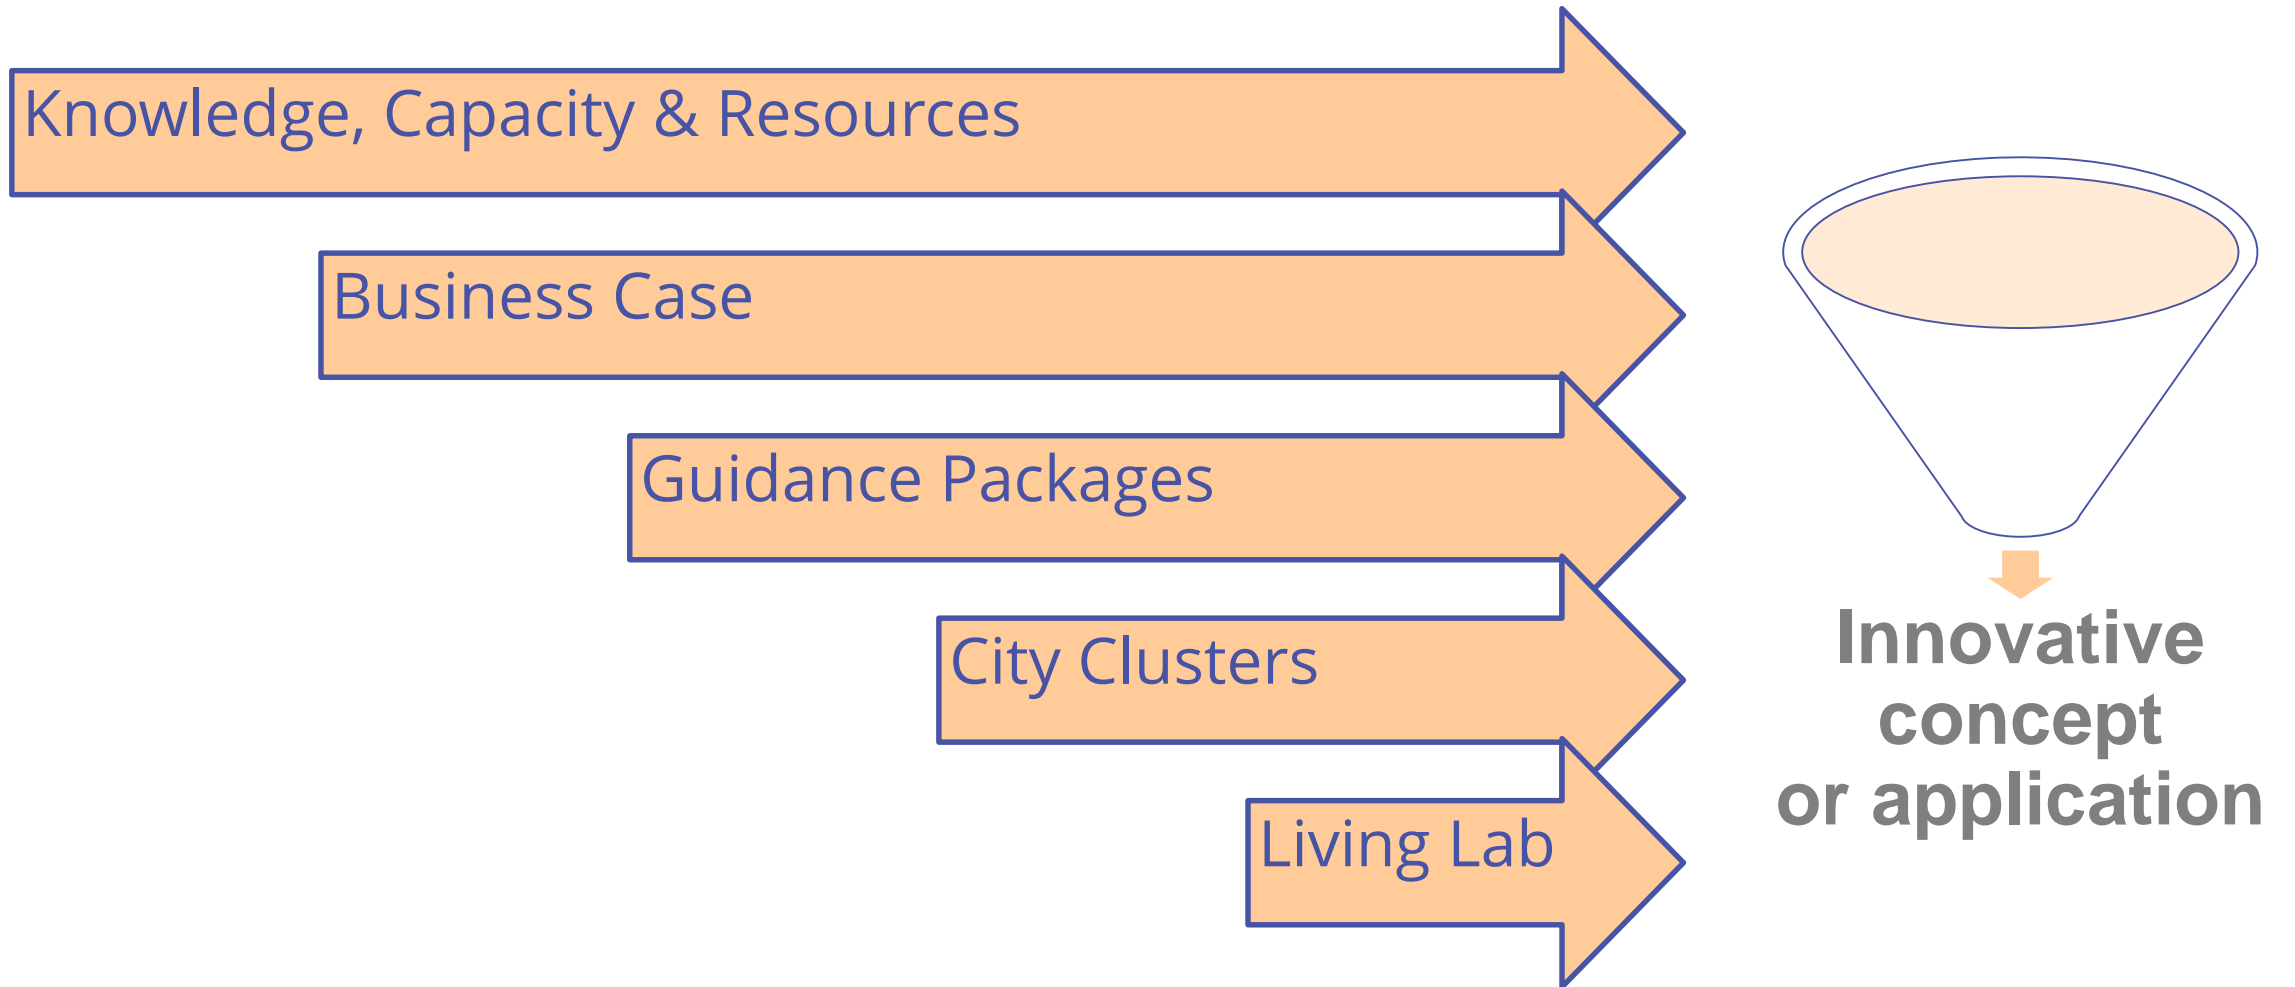

- Develop midsize city challenges & business cases
- Deploy open data
- Test innovative procurement
- Develop ecosystems and improve cocreation with the market, cities and citizens

Towards a cookbook for open innovation with open data in midsize cities in Europe

How does the accelerator work?

2019 SCIFI Challenges

- Cycling with All Ride
Mechelen & Bruges
- Waste management with Sis.Ter
Delft
- Air quality with Hopu
Mechelen & Bruges
- De-icing with Quantilion
Delft
- Air quality with Nazka
Mechelen
- Watering with Element.IO
Saint Quentin

Hall 2, Level 0, Street F, Stand 687

2020 SCIFI Challenges

Mobility & Environment

- 1) Bicycle flows
- 2) Pedestrian flows
- 3) Housing transitions
- 4) Multimodal transport
- 5) Shared mobility access
- 6) Urban logistics vehicles
- 7) Access and parking
- 8) Sustainable commuting to industrial zones
- 9) Facilities maintenance

Join the SCIFI network

- Learn about the challenges and prototype solutions
- Feedback on scalability
- Implement successful solutions
- Training and support on Open Data
- Training and support on tendering procedures
