Stage Programme

Stand F650

» Tuesday 19/11

10:00 SCORE - *'Setting the Scence for Smart Cities and Open Data Re-Use'*

10:30 SCORE City Presentation *'Improving Mobility in the City'*

10:30 SCORE City Presentation *''Water Management as a Common Challenge'*

11:30 City of Tampere *'Intelligent Street Lighting'*

12:00 - 14:00 Break

14:00 SCIFI *'Introduction to Smart City Innovation'*

14:30 Seoul Digital Foundation - *'Examples of International Cooperation - the GDIA'*

15:00 Smart Flanders - *'A regional approach to joint procurement, open data and more'*

15:30 OASC Announcement

» Wednesday 20/11

10:00 SELECT4Cities - *'Impact of Pre-Commercial Procurement'*

10:30 UrbanTide - *'USMART Data Insights Platform'*

11:00 Engineering - *'The Digital Enabler'*

11:30 Martel Innovate - *'Orchestra Cities'*

12:00 PoliVisu - *'Impact of Data Visualisation'*

12:30 DUET - *'Urban Digital Twins'*

13:00 Connected Places Catapult - *'Running Pilots for Scale-Up'*

13:30 European Commission - *'Scaling Up Digital Solutions in Europe: Tools and Support''*

14:00 Digital Catapult - *'SynchroniCity Data Marketplace*

14:30 City of Milan - *'Pilots for Impact'*

15:00 City of Antwerp - *'Innovative Procurement'*

15:30 Smart City Institute - *'OASC Japan & Japan's Super City Strategy'*

16:00 World Economic Forum - *'The G20 Global Smart Cities Alliance'*

17:00 Scale-Up Reception hosted by SynchroniCity

- Martin Brynskov, OASC
- Zsuzsanna Bodi, ENoLL
- Svetoslav Mihaylov, European Commission
- Joan Batlle, Barcelona
- Bart Rosseau, Ghent

» Thursday 21/11

10:00 Foundation for Public Code - *'Codebase Stewardship'*

10:30 City of Limerick - 'Urban Digital Transformation in Limerick: Lighthouse Smart City '

11:00 City of Utrecht - *'The City Innovation Platform'*

Stuff That Works Stage & Expo

The **Open & Agile Smart Cities stand (F650)** is a meeting and exhibition space for like-minded cities and open innovators.

This year's congress theme - **Cities Made of Dreams** - reflects on the recent and rapid transformation of cities and communities. Many digital solutions that are successfully implemented today, seemed like sheer daydreaming only a decade ago.

Our **Stuff That Works Stage** features solution providers and cities at the forefront of urban innovation. While interoperable services and solutions still seem like a dream today, at the OASC stand you will meet innovators from the public and private sector who are working towards making this dream come true.

The **OASC Expo Space** features associations and projects working towards more open and agile sharing of solutions across cities - from pre-commercial procurement and the shared technical foundations to the use of open source building blocks in the public sector.

Our Member Cities

Open & Agile Smart Cities connects 150 cities from 30 countries across 4 continents. Join us today to have your say in tomorrow's smart city standards: www.oascities.org/how-to-join/

Our Partners

Visit the OASC stand F650 to meet and exchange with our partner organisations and projects.

SCORE
SMART CITIES AND OPEN DATA RE-USE

Interreg North Sea Region SCORE
European Regional Development Fund
EUROPEAN UNION

The project **SCORE (Smart Cities Open data RE-use)** aims to increase efficiency and quality of public services in cities based on smart and open data-driven solutions. SCORE is a European funded project with nine cities: **Amsterdam, Aarhus, Aberdeen, Bergen, Bradford, Dordrecht, Ghent, Gothenburg & Hamburg** and three universities are cooperating. The partner cities share innovative solutions based upon open data.

SYNCHRONICITY

SynchroniCity is the European IoT Large-Scale Pilot for Smart Cities & Communities. The initiative drives the concrete creation of a global market where cities and businesses develop shared digital services to improve the lives of citizens and grow local economies. SynchroniCity is built on the belief that creating an open and agile digital market across borders will help cities and its citizens get better services.

OASC OPEN & AGILE SMART CITIES

Open & Agile Smart Cities (OASC) is an international network of smart cities and communities. The network connects 150 cities from 30 countries across 4 continents.

Our mission is to unite cities around the world to agree on common, open standards that enable a global market for urban, data-driven services based on the needs of cities and communities.

As a non-profit organisation, OASC facilitates the exchange between cities and communities on digital interoperability and fosters capacity building and exchange of best practices between member cities worldwide.

SCIFI
Smart City Innovation

SCIFI (Smart City Innovation Framework Implementation) aims to activate the market for innovative solutions to improve public service delivery using data. The partner cities jointly explore innovative procurement methods to work with businesses in developing data-based solutions and demonstrating the value of opening data.

09:00 - 13:30

In the 21st century, software can be considered vital public infrastructure. The **Foundation for Public Code** helps open source projects for public organizations become successful, builds sustainable communities around them and creates a thriving public open source ecosystem via ecosystem level codebase stewardship of both software and civic code (policy).
