

LIVING-IN.EU

Living life the European way.
Where digitalization makes your life easier
and brings us into balance with nature.

Join us in creating our future.

JOIN, BOOST, SUSTAIN

Living-in.EU was established in 2019 as a result of the Finnish presidency in Oulu with the launch of the **declaration** Join, boost Sustain.
The multi-level movement provides a platform for cities, communities and member states to deploy large-scale digital solutions to solve societal challenges

The city as a hub of digital transformation

Living-in EU mission and vision

Create **cohesive, digital Europe** where every **city** and **community** can enjoy the economic and social **benefits** of a **green and digital transformation**.

Support cities and communities at the European level to (re-)use and share trustworthy solutions, technology and standards to accelerate the European way of digital and green transformation at local level.

LOCAL DIGITAL TWIN

URBAN DATA PLATFORM

LOCAL DATA SPACES

What's in for the local and regional level

Unique access to information, funding and tools

Repository of:
aggregated knowledge,
policy guidelines and
technical instruments,
training programmes and
monitor and measuring
tools

Connecting you in the EU ecosystem

Effective collaborations
between the levels of
governance (EU, national,
regional and local) & all
other ecosystem players

Practical Guidance

We support you in your
process

Enhanced visibility and recognition

At EU level and vis-a-vis
all ecosystem players

What's in for the supporters

Connecting you in the EU ecosystem

Effective collaborations
between the levels of
governance (EU, national,
regional and local) & all
other ecosystem players

Enhanced visibility and recognition

At EU level and vis-a-vis
all ecosystem players

Engage with the community!

**Go one step further and take part of the 5 sub-groups.
Collaborate with peers.**

**Education &
Capacity building**

Legal

Financial

**Monitoring &
measuring**

Technical

Concretely

- Minimum Interoperable Mechanisms (MIMs Plus)
- Fair AI standard procurement clauses
- Algorithm transparency registry
- Interoperable Europe Act
- Legal aspects of algorithm registries
- LORDIMAS tool (measuring digital maturity of municipalities)
- Capacity building workshops (based on needs)
- Mapping of financial mechanisms
- Concrete funding mechanisms and their relevance for cities (e.g., 5G for SC)
- a list of needs from cities for the next financing period
- exploring EDICs
