

LIVING-IN.EU

The European way of digital transformation
in cities and communities

*Over 120 signatures so far... Mayors, Regional and national
Ministers and around 110 supporters*

<https://www.living-in.eu/>

Living-in EU mission and vision

Create **cohesive, digital Europe** where every **city** and **community** can enjoy the economic and social **benefits** of a **green and digital transformation**.

Support and **accelerate** the European way of digital and green transformation **by engaging cities and communities at the European level to develop, (re-)use and share** trustworthy **solutions, technology and standards**.

What's in for the local level

Unique access to information, funding and tools

Repository of:
aggregated knowledge,
policy guidelines and
technical instruments,
training programmes and
monitor and measuring
tools

Connecting you in the EU ecosystem

Effective collaborations with
EU, MS & all other
ecosystem players

Practical Guidance

We support you in your
process

Enhanced visibility and recognition

At EU level vis a vis all
ecosystem players

Results

- Set of Minimum Interoperable Mechanisms (standards, Ethical AI clauses, AI registries.....)
- LORDIMAS tool (measuring digital maturity of municipalities)
- Capacity building workshops (based on needs)
- Mapping of financial mechanisms, a list of needs from cities for the next financing period, exploring EDICs
- Link with other projects:
 - Local Data Space
 - Local Digital Twin toolbox
 - New European Bauhaus
 - Testing and experimentation facilities (TEF)

Stay tuned!

- Mayors' Digital Assembly
- Digital Maturity Assessment tool (LORDIMAS, CoR, ESPON)
- MIMs developments
- European Digital Infrastructure Consortium

6 European Commission priorities for 2019-24

- A European Green Deal
- A Europe fit for the digital age
- An economy that works for people
- A stronger Europe in the world
- Promoting our European way of life
- A new push for European democracy

Thank you
