

Become Better Connected OASC Conference 2024 Rotterdam

Council of Cities

What do we want to achieve in 2025?

- Up to 300 people active at the General Assemblies
- Experience on the agenda meaning / role social / 'citizens'
- Experience and technology better connected
- More room for Council of Cities to make adjustments
- City/community as an ecosystem (with digital needs and opportunities) more central than technology
- Data-driven instead of software-driven based on open and (well-known) PPIs

OPEN & AGILE SMART CITIES
& COMMUNITIES

Gemeente
Rotterdam

ROTTERDAM
PARTNERS

Process

- Use the lessons learned of this conference as basis:
- Organizing 2 CoC meetings per year based on an open agenda (including Rotterdam Partners),
- Interim (periodic) meetings (workshop, etc.) regarding knowledge exchange, Governance, data-driven instead of software-driven, OUPs, DTs, Tenders, etc.
- Goal to expand and/or activate with other networks
- Focus on the LDT toolbox
 - (are we also going to participate in the call that has been/will be issued about this?)
 - consequences? Are we also going to include our 'transferable' knowledge in this? How?

HOW

Enjoy your stay in Rotterdam and become better connected!
