EUROPE

Empowering Cities and Local Communities

Monika Heyder

Senior Expert

Green & Digital Transformation

Chair German Mirror

*Committee Sustainable Cities and
Communities*

Strengthening replication

“To help more EU cities become smarter and greener through technology, the EU should better tap the potential for replicating the results already achieved.”

*Ildikó Gáll-Pelcz,
European Court of Auditors*

International Standardisation Activities in ICT

Requirements

As places of implementation cities and communities require a permanent seat at the table

Affordability

- Funding to support cities' continued engagement
- Hybrid meetings to allow participation
- Reduce costs for public authorities
- Products affordable

Accessibility

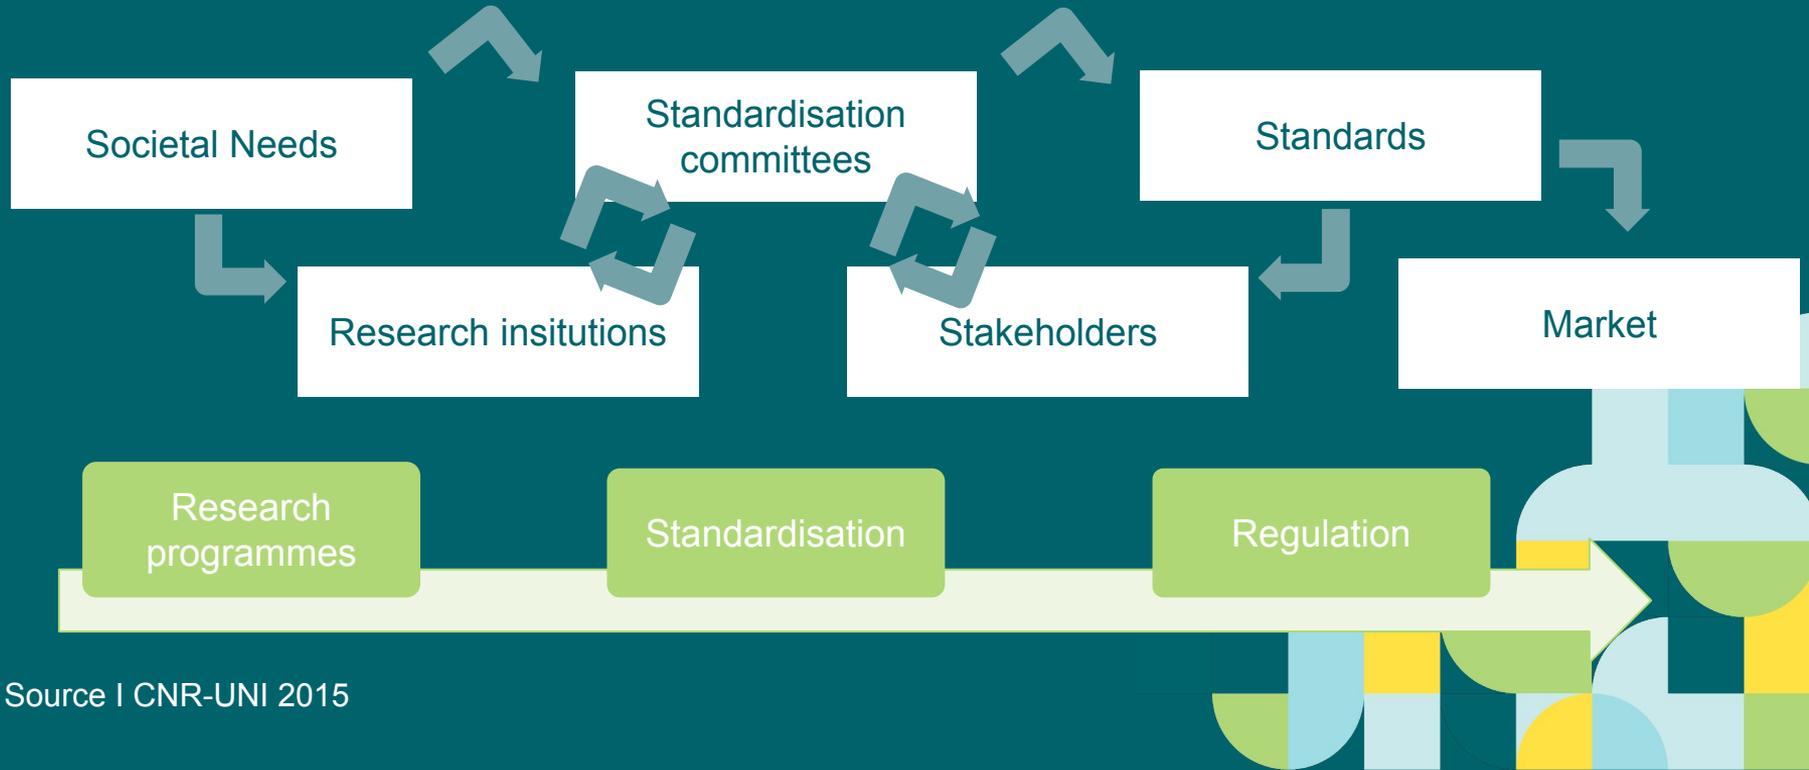

- Reduce redundancies and overlaps
- Better navigability of the complex landscape
- Agile working
- Capacity building

Implementation

- Needs perspective
- Link to national and European programmes
- Reference implementations
- Translating standards in guidance
- Support by governments

Knowledge valorisation

From societal needs to market
