MIM5

Fair and Transparent Artificial Intelligence

OASC Conference 2024
16 January 2024

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or European Health and Digital Executive Agency (HaDEA). Neither the European Union nor the granting authority can be held responsible for them.

AI for Public Services: Challenges

- Governments are increasingly seeking to capture the opportunities offered by automated decision-making algorithmic systems (i.e. AI) to improve their services.
- However, government agencies and the general public have justified concerns over bias, privacy, accountability, and transparency of such automated decision-making processes.

MIM5: Core Objective

"Cities and communities will have the technical capabilities required to verify that the algorithmic systems offered by suppliers to make decisions about the services offered to citizens are fair, trustworthy and transparent."

(This includes the models used, the datasets on which the algorithms are trained, and the data that the models use to make decisions.)

MIM5: Benefits

- MIM5 will provide a technical foundation to help cities and communities validate algorithmic systems.
- MIM5 specifications and approach will support to safeguard a transparent and fair procurement process for AI-based public services
- MIM5 will provide a framework to contribute to the interoperability and reusability of AI solutions across cities and domains.

MIM5: 2023 Recap

- Establishment of the MIM5 technical WG + mailing list (CommuniCity project lead)
- Periodical online interactive sessions to develop and refine the focus of MIM5
  - Clarify the key areas of challenges to tackle
  - Identify MIM5 objective, capabilities and requirements

MIM5: 2024 Objectives

MIM5 Scope Refinement

- Regular online MIM5 WG meetings and workshops directly with cities and communities to
  - Connect MIM5 with real practices on AI-based service procurement and implementation
  - Validate MIM5 priorities
  - Identify use cases to guide the concrete implementation and testing of MIM5 mechanisms

MIM5: Sign Up & Join Us!

- February 2024 – first online workshop with cities and communities
- This afternoon 16:30 to 17:30 – MIM5 Workshop

Thank You
