

## Agenda

- Introduction of the speakers by Gert Hilgers (OASC)
- Setting the Local Digital Twin scene by Miguel Alvarez Rodriguez (European Commission)
- Introduction Smart Communities Network by Virginie Verstraete and Inge Willemsen (OASC)
- Introduction CitiVERSE EDIC by Miguel Alvarez Rodriguez (European Commission)
- Introduction Local Digital Twin procurement helpdesk for local authorities by Jonas Onland (Serendipity)

# Setting the Local Digital Twin scene

Local Digital Twins Toolbox Procurement Project by Miguel Alvarez Rodriguez

# Support services for EU Smart Communities

For communities in early stage: Advancing Initial Stages for the Transformation of Smart Communities

'Increase the Awareness and Readiness of EU Communities' (Lot 1) and 'Scale the Deployment of an Enabling Digital Infrastructure' (Lot 2). Outcomes are:

- Increasing digitalisation awareness and readiness of Member State communities
- Smart Communities Network
- Online Local Digital Twin Procurement Helpdesk for Smart Communities

For advanced communities: development of the Local Digital Twins (LDT) Toolbox for Advancing the Transformation of Smart Communities

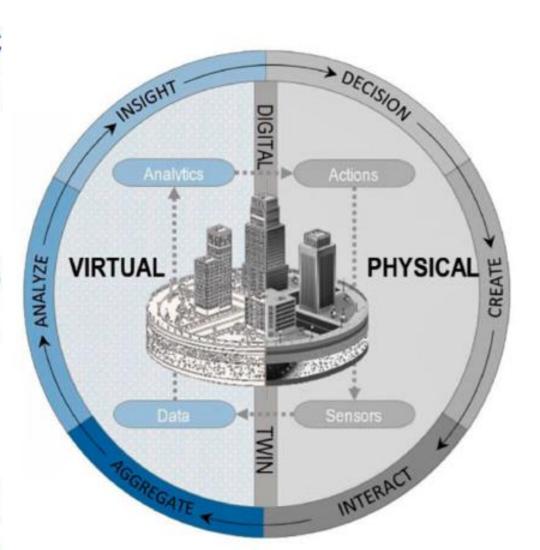

'Development of the EU Local Digital Twins (EU LDT) toolbox for Advancing the transformation of Smart Communities' (Lot 4) and 'Monitoring, evaluation and quality review of the development of the EU Local Digital Twins (EU LDT) toolbox for Advancing the transformation of Smart Communities' (Lot 5). Outcomes are:

• EU Local Digital Twin Toolbox

## Local Digital Twins and supporting tools

- Digital representation of a city offering dynamic simulation of urban systems, for enhance planning and resource management
- European Commission is creating Al-based algorithms and SW components for smart urban planning ("Local Digital Twin toolbox")
- Local Digital Twin for Reconstruction: Advanced tool using virtual city models and Al algorithms to assess damages, simulate reconstruction scenarios, and calculate precise cost estimates before, during and after project (high potential e.g. supporting Ukraine)

The Smart Communities Network comprises public associations, organisations and networks of cities and municipalities from all 27 EU Member States who have formally agreed to cooperate with the European Commission on the support of the Smart Communities ecosystem within their own country. The SCN main goal is supporting local communities in their digital transformation efforts.

### Approved members

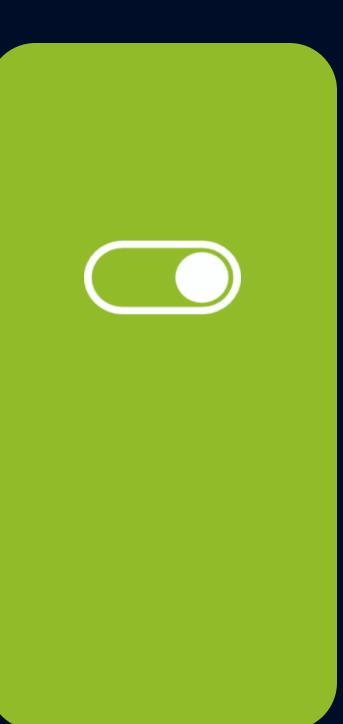

- Belgium: Paradigm Brussels & Agence du Numérique (ADN)
- Germany: Federal Institute for Research on Building, Urban Affairs and Spatial Development (BBSR)
- Denmark: Local Government Denmark
- Estonia: FinEst Centre for Smart Cities (Taltech)
- Finland: Business Tampere
- France: Cap Digital & CEREMA (Centre d'études et d'expertise sur les risques, l'environnement, la mobilité et l'aménagement)
- Lithuania: Lithuanian Green Municipalities Network
- Latvia: Vefresh
- Malta: Local Councils' Association (LCA)
- Netherlands: Association of Netherlands Municipalities (VNG)
- Portugal: Administrative Modernization Agency (AMA)
- Romania: National Centre for Cartography (NCC)
- Slovenia: Association of Urban Municipalities of Slovenia (ZMOS)
- Spain: Spanish Federation of Municipalities and Provinces (FEMP)
- Sweden: The Swedish Association of Local Authorities and Regions (SALAR) & RISE Research Institute of Sweden

# Work in progress Members States

- Austria
- Bulgaria
- Croatia
- Republic of Cyprus
- Czech republic
- Greece
- Hungary
- Ireland
- Italy
- Luxembourg
- Poland
- Slovakia

# Call to Action

Join the Smart Communities Network, it is the platform to help the local level be an active part of the European green and digital transition

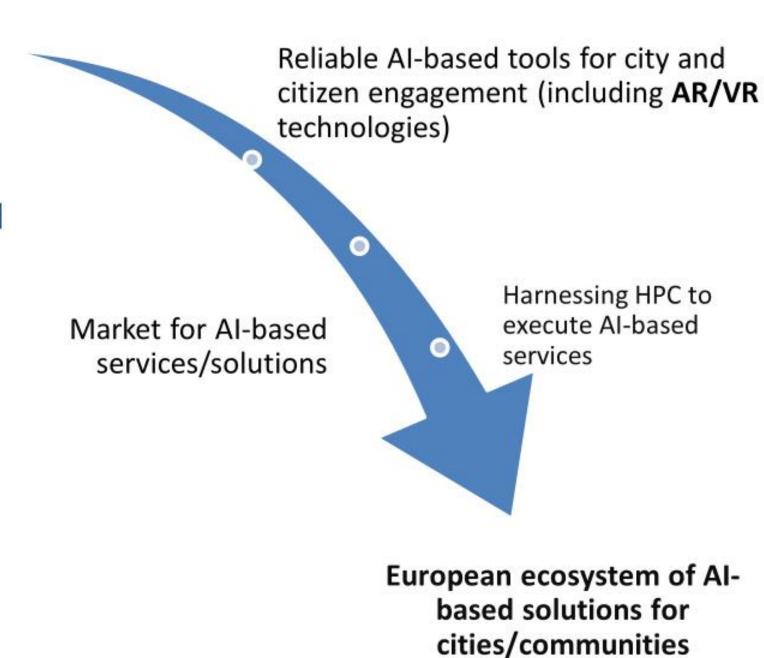

More information on <a href="https://living-in.eu/news/join-eu-smart-communities-network-and-contribute-shaping-europes-digital-future">https://living-in.eu/news/join-eu-smart-communities-network-and-contribute-shaping-europes-digital-future</a>

# European Consortium of Digital Infrastructures for Digital Twins (EDIC)

- Vehicle for the ownership and operation of common infrastructures (e.g., national cloud-based platforms for urban data, "Local Digital Twin Toolbox")
- Advantage: Sharing costs and investments, creating a solid European market, sharing resources, consolidating data repositories, economies of scale
- Opportunities for local innovators as providers of artificial intelligence tools
- Currently involves 12 Member States. Cities can join after legal establishment (November 2024)

# Value of Completing the Journey

Structured tools & assets for facilitating execution of your smart city specific objectives

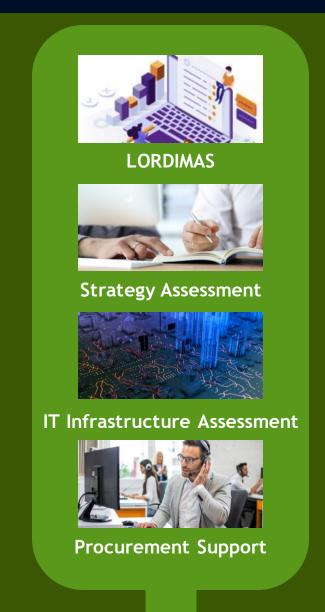

Customised Digital Transformation Roadmap and guidance on procurement needs

Participation to a European peer network pioneering the advancement of local data platforms and Al-powered digital twins

# Why is it Useful for your City?

Strategy and decision making

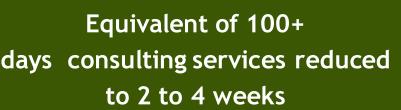

Thematic experts in function of priorities

**Customised digital** transformation roadmap and guidance on procurement needs.

# Why is it Useful for your City?

**Fully** funded by the European Commission, this initiative covers all expenses related to support activities and assessments. It's important to note that while the costs for these preparatory stages are fully covered, there isn't direct funding available for the actual implementation of the and communities solutions. Cities looking to fund the implementation phase are advised to explore the DEP (Digital Europe Programme) grants and funding opportunities.

Assemble a multidisciplinary team to efficiently respond to assessment questions and invest an estimated 2-4 days. This should include Innovation Managers (like Chief Innovation, Digital, or Technology Officers), key strategic city departments, the PMO, and specialists in IT, data, and architecture such as Data Managers, ICT Managers, IT Architects, alongside IT Procurement and Infrastructure Providers. This comprehensive team composition ensures a well-rounded approach to addressing the assessments' requirements.

#### Strategy & decision-making

- Innovation Manager (Chief Innovation, Chief Digital or Chief Technology Officer, Smart City Manager or similar)
- Relevant city departments with strategic and decision-making capacity
- Project management office (PMO)
- Thematic experts

#### IT/Data/Architecture

- Data Manager (Chief Data Manager, IT manager, Data Steward, or similar)
- ICT Manager and Systems Specialist
- IT Architect

#### IT Procurement

• Infrastructure Provider
